PAYMENT PROTECTION PROGRAM (PPP) LOANS

The program would provide cash-flow assistance through 100 percent federally guaranteed loans to employers who maintain their payroll during this emergency. If employers maintain their payroll, the loans would be forgiven, which would help workers remain employed, as well as help affected small businesses and our economy to snap-back quicker after the crisis. PPP has a host of attractive features, such as forgiveness of up to 8 weeks of payroll based on employee retention and salary levels, no **SBA** fees and at least six months of deferral with maximum deferrals of up to a year. Small businesses and other eligible entities will be able to apply if they were harmed by COVID-19 between February 15, 2020 and June 30, 2020. This program would be retroactive to February 15, 2020, in order to help bring workers who may have already been laid off back onto payrolls. **Loans are available through June 30, 2020.**

FREQUENTLY ASKED QUESTIONS

QUESTION: What types of businesses and entities are eligible for a PPP loan?

- Answer:
- Businesses and entities must have been in operation on February 15, 2020.
 - Small business concerns, as well as any business concern, a 501(c)(3) nonprofit organization, a 501(c)(19) veterans organization, or Tribal business concern described in section 31(b)(2)(C) that has fewer than 500 employees or fewer employees than established by the relevant industry code.
 - Individuals who operate a sole proprietorship or as an independent contractor and eligible self-employed individuals.
 - Any business concern that employs not more than 500 employees per physical location of the business concern and that is assigned a North American Industry Classification System code beginning with 72, for which the affiliation rules are waived.
 - Affiliation rules are also waived for any business concern operating as a franchise that is assigned a franchise identifier code by the Administration, and company that receives funding through a Small Business Investment Company.

QUESTION: What are affiliation rules?

Answer: They become important when SBA is deciding whether a business's affiliations preclude them from being considered "small." Generally, affiliation exists when one business controls or has the power to control another or when a third party (or parties) controls or has the power to control both businesses. Please see [this resource](#) for more on these rules and how they can impact your business's eligibility.

QUESTION: What types of non-profits are eligible?

Answer: All 501(c)(3) non-profits with 500 employees or fewer, or more if SBA's size standards for the non-profit allows. Please visit <https://www.sba.gov/size-standards/> to find out your non-profit's SBA size standards by number of employees. For example, churches and museums with fewer than 500 employees are eligible. You will need the 6-digit North American Industry Classification Code for your business.

FREQUENTLY ASKED QUESTIONS

Answer: Depending on your business's situation, the loan size will be calculated in different ways (see below). The maximum loan size is always \$10 million.

- **If you were in business for the past 12 months:** Your max loan is equal to 250 percent of your average monthly payroll costs during 12 months prior to the loan origination date. If your business employs seasonal workers, you can opt to use 02/15/19-06/30/19, or 03/01/19-06/30/19 or the rule below for new businesses.
- **If you were not in business for the past 12 months:** Your max loan is equal to 250 percent of your average monthly payroll costs between January 1, 2020 and February 29, 2020.
- **If you took out an Economic Injury Disaster Loan (EIDL) between February 15, 2020 and June 30, 2020** and you want to refinance that loan into a PPP loan, you would add the outstanding loan amount to the payroll sum.

SMALL BUSINESS TAX PROVISIONS

Employee Retention Credit for Employers Subject to Closure or Experiencing Economic Hardship

This provision would provide a refundable payroll tax credit for 50 percent of wages paid by eligible employers to certain employees during the COVID-19 crisis. The credit is available to employers, including non-profits, whose operations have been fully or partially suspended as a result of a government order limiting commerce, travel or group meetings. The credit is also provided to employers who have experienced a greater than 50 percent reduction in quarterly receipts, measured on a year-over-year basis.

Wages of employees who are furloughed or face reduced hours as a result of their employer's closure or economic hardship are eligible for the credit. For employers with 100 or fewer full-time employees, all employee wages are eligible, regardless of whether an employee is furloughed. The credit is provided for wages and compensation, including health benefits, and is provided for the first \$10,000 in wages and compensation paid by the employer to an eligible employee. Wages do not include those taken into account for purposes of the payroll credits for required paid sick leave or required paid family leave, nor for wages taken into account for the employer credit for paid family and medical leave (IRC sec. 45S).

- **The credit is not available to employers receiving assistance through the Paycheck Protection Program. The credit is provided through December 31, 2020.**

Delay of Payment of Employer Payroll Taxes

This provision would allow taxpayers to defer paying the employer portion of certain payroll taxes through the end of 2020, with all 2020 deferred amounts due in two equal installments, one at the end of 2021, the other at the end of 2022. Payroll taxes that can be deferred include the employer portion of FICA taxes, the employer and employee representative portion of Railroad Retirement taxes (that are attributable to the employer FICA rate), and half of SECA tax liability.

- **Deferral is not provided to employers receiving assistance through the Paycheck Protection Program.**
